AUXILIO, Inc. Releases White Paper: “Clearing Confusion and Easing the Burden of EMR Compliance on Hospitals’ IT Departments”

Mission Viejo, Calif. (June 17, 2010) – AUXILIO, Inc. (AUXO.OB), the pioneer in managed print services (MPS) for the health care industry, today announced the release of an industry white paper: [“Clearing Confusion and Easing the Burden of EMR Compliance on Hospitals’ IT Departments”](#) that simplifies the IT and operational functions necessary to achieve Electronic Medical Records compliance and offers a comprehensive print strategy and solution that is proven to cut costs, enhance productivity and increase spend visibility across the hospital and hospital system.

In addition to exploring the benefits of a print management strategy for the health care industry, the white paper addresses the level of confusion that exists in the marketplace about MPS, and its relationship to Electronic Document Management System (EDMS) and implementing EMR in hospitals, bringing clarity to the highly fragmented, frequently misunderstood and enormous undertaking of preparing hospitals for Electronic Records Management and compliance with the federal mandate.

[“Clearing Confusion and Easing the Burden of EMR Compliance on Hospitals’ IT Departments”](#) White Paper is publicly available as a PDF download in the [Press](#) section of AUXILIO’s website. For further information regarding AUXILIO or Managed Print Services, please visit www.auxilioinc.com.
